# Skill Level Evaluation

At the **WHIZard Academy for Mathematics & English** we start with a **FREE SKILL LEVEL EVALUATION** (\$150 VALUE) in Math or English to assess each student's strengths and weaknesses.

Based on the results of the FREE evaluation, we will design a **custom program** that will uniquely target the student's skill gaps and insure **dramatic improvement** in their level of understanding of the subject. Your child will experience immediate, measurable academic progress by working from their own "**custom designed**" program.

If you're serious about eliminating your child's academic difficulties and want to watch their grades soar, call right now to schedule your **FREE** Math or English Skill Level Evaluation. This is the first step to help your child succeed in school.

Our evaluation has a **\$150 Value** and we're offering it to you **FREE** with no obligation or risk. We want to see your child succeed as much as you do so this is our way of showing you how committed we are!
